## S O C I A L

## P R O F I L E

In the present, I am a student. The courses I attended have built me a foundation in economic disciplines, as well as programming and databases. In the past, I took part in volunteering actions, in Iași and Bacău.

Lately, I've been learning front end development on my own. What attracts me to the front end is the instant visual feedback that I get.

## E D U C A T I O N
